

MOTHER'S MILK

2010 Barossa Shiraz

Grab

Slurpy, savoury and textured – no sledgehammer, so drink up!

Spiel

Not a sledgehammer style, this Barossa Shiraz is made for drinking! Soft, slurpy and textured it is balanced with good acidity, which refreshes the palate and makes you go back for a second / third glass. Sourced from 2 unique vineyards, it is fruit laden, savoury and dangerously easy to drink! It is matured for 15 months in 100% old French oak hogsheads to allow the fruit to express itself.

Colour

Garnet red with purple hues

Bouquet

A complex nose of dark cherry and blackberry aromas with a hint of forest floor and spice

Palate

Vibrant dark cherry and blackberry with a hint of 'wombat rolled in all spice' balanced with an even, textural palate with soft, supple tannins

Grub Match

Rump steak, mushroom sauce, chips and salad – say no more!

Cellaring

Drink up, but also a 5-8 year proposition.

Vintage

We received some of the best winter rains for five years that refilled soil profiles and replenished empty irrigation dams. Hooray! But an unseasonal seven day burst of hot weather in early November during flowering, reduced fruit-set and led to variable yields. Boo! Weather conditions through the ripening months of February and March were ideal with warm sunny days and relatively cool nights. Hooray! Although rain events in April kept us on our toes. Boo! So the 10 vintage 'wasn't all beer and skittles'. The variable ripening made it tough to decide when to pick, but experience and sorcery got us through, resulting in some solid booze in the winery. Hooray!

Vineyard

Matt's vineyard is just west of Gomersal in the west of the Barossa - 180m above sea level on deep red clay

Peter and Joel's vineyard is in the east of the Barossa up at Wilton in Eden Valley - 550m above sea level on clay over ironstone and quartz

Vinification

The fruit is crushed/destemmed and fermented at temperatures ranging from 20-25°C for 6 days on skins. The ferment is managed by a variety of techniques, including 'aerative pump overs' and 'drain and returns' which assist in extracting colour, flavour and tannin from the grapes. At the end of fermentation, it is drained/pressed, and transferred to 3 and 4 year old French oak hogsheads to undergo MLF. Post MLF, sulphur dioxide is added, and the wines mature sur lie for 15 months. This wine was bottled in July 2011.
